## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1, 4-5 and 11, drawn to a method of manufacturing a semiconductor device.

Group 2, claim(s) 2-3 and 6-10, drawn to a method of manufacturing a semiconductor device.

The inventions listed as Groups 1 and 2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of claims 1, 4-5 and 11 and the invention of claims 2-3 and 6-10 are linked to one another only by respect of the feature "etching the semiconductor film using the mask to form a semiconductor layer." However, this feature is disclosed in a prior art document JP 2000-066233 A (HITACHI, LTD), 2003.03.03. So the feature cannot be a special technical feature. And there exists no special technical feature linking the invention of claims 1, 4-5 and 11 and the invention of claims 2-3 and 6-10 as to form a single general inventive concept among the inventions. Therefore, there are no technical relationship which is considered as "special technical feature" among the claims 1, 4-5 and 11 and the claims 2-3 and 6-10.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
